

SULPAK¹⁷

What is SulPak 17 ?

SulPak 17 activates the enzyme and hormone systems in plants which are essential for normal plant growth and reproduction. SulPak 17 provides nutrients for healthier roots, stronger stems and stalks and better fruit. SulPak 17 is beneficial when applied anytime during the growth season.

Benefits:

- Lowers pH in alkaline soils to increase uptake and efficiency
- Aids protein synthesis because it is a component of three amino acids
- Works as a natural fungicide especially after exposure to rain & fog
- Plays important role in plant metabolic functions and enzyme processes
- Detoxifies heavy metals in plants
- Regulates ion transport across bio-membranes

* Safe to Spray on all crops until bloom
